“ No words can comfort a parent losing a child so young and with so much promise for a bright future. Your parents adore you as does your sister. You are much loved. I will be there as your mother's friend to offer her hugs and support. I hope you will watch over your family now that you have your angel wings. Hearts are broken...because you are loved so much. Peace be with you.

“ I am simply beyond words to have lost such a dear friend and fellow scientist. Thinking of Alden, his family and friends. Hugs and tears,
