JG

“ I worked at the same place as Berry and we knew a lot of the same people. We'd see each other on campus and she'd always have a HUGE smile and ask how's it going. We'd catch up for a few minutes and if we were in charge, work would be smooth sailing! She was SO incredibly proud of her kids. She knew she raised them right and now it was just a matter of time...her teachings would kick in. She really cherished visiting them. Her basketball and football pools were things of legends...I think she rigged them as the same people (Rahul) frequently won! I'm SO incredibly shocked and saddened at her loss. She really made the world a better place.
