“ Grandma was kind, loving and great example to look up to. She cared about all of her kids, grand kids and great grand kids, they were all very important to her. She was loyal to her church and would always say she was praying for you.
I am lucky I was able to grow up with her being a big part of my life. She loved our grandfather and always talked about him and missed him a lot. I'm glad she is finally able to be with him. We will miss her but I know she is up there watching over us and am thankful she was my grandma.

“ My grandmother was a kind person. She always remembered my birthday, even when family did not. I didn't get to see her often but I got to speak to her on the phone, she always cared and remembered to asked about my kids and what they were doing. I believe she is looking down from heaven now, I hope she is proud.
Love you grams - Jason
