“ *Don: A dear friend. An awesome mentor to my children as well as many other neighborhood children. A wonderful musician that lovingly played and sang at our wedding. Most importantly though is the wonderful father to Dean, Kenny & Sheri and yes; all the kids that were always welcome to "hang out" at the "cool" house on the block. And the wonderful loving husband to your one true love, Jan. As Jan's health started deteriorating you were always there with a smile and the gentle touches when taking care of her needs. Miss you both but know you are once again together forever. RIP Dear Friend. Jim & Jackie Myers 6/3/15*

“ *Missing my old friend, family friend and the best of neighbors that anyone could have. 45 years of family and personal friendship. The camping and fishing, growing up with Sheri, Dean and Kenny. Skinning the stinky skunk along with Sheri. Most people would have not allowed it but you offered your garage. A rarity that you were wrong but no, a tomato juice bath did not make the smell go away. Don and Jan always there for our family and us for theirs. Wish I could thank you again for the many pots of coffee that you shared with my dad. I will never forget Ankeny hill. ODGP.*
