“ Back 50 years ago when Don was a young chemist at GP and I was a new chem engineer, we shared a love of hiking and the mountains with several other GP lab folks. Don was on Mountain Rescue and we climbed several mountains with Don helping lead the way. I remember 2 attempts on Mt. Baker before we made it to the top. Also we climbed Mt Larrabee and the Twin Sisters together. Don was a solid, dependable climber and human being. Great memories of a great guy. Rest in peace, Don and enjoy the view from the top.

“ My condolences to the Wenzel family. Don was among the first to welcome me to HP Corvallis in the booming 1990s expansion. He was gracious and allowed me to share his desk and computer during my first weeks here. Always smiling, always helpful, and always smart and insightful to whatever was happening in the operation and the technology. All my best from our family during this loss. May his memory always be a blessing! Fondly, Todd Herder and family

“ My condolences to Don's family. I worked with Don in Building 10 at the HP campus while we were both ink chemists. Don guided me around the first days when I arrived in Corvallis back in '94 and was always a trusted source of information on everything from fishing to building a fence and of course ink chemistry. Just a good, humble soul looking to help out wherever he could. He convinced me to restart fishing but I couldn't convince him to try out ballroom dancing. Well, I hope he's fishing in heaven- he deserves it.

Paul Reboa, retired HP chemist
