“ I met Jerry back in 85/86 when Tony (who would later become my husband) started working for him. Our family spent many years watching the guys down at the shop, working on the orange El Camino and the race car. We'd watch Jerry race most weekends in Lebanon, Roesburg and Coos Bay, from dirt track to asphalt. We have many great memories of Jerry and the race track. Jerry was dedicated to family, always talked about the boys, and would never let anything interrupt his lunch with Jane. He was a good family man and he will be greatly missed.

“ I will always remember the good times, I had as a kid walking around/hanging out at the shop with Uncle Jerry. I will always remember being my little 6 year old self talking to you about how I one day wanted to be in your race car or have one of my own to be able to race along side of you, and work on them together. Uncle Jerry taught me a handful of skills when it came to cars and I owe him for the passion I carry today in track racing and modifying cars. We love you and you will be truly missed Uncle Jerry.
