“ *My little sister. What can I say that would come close to capturing what an amazing person she was. Her beautiful smart and savvy sons....her devoted husband,and the limitless devotion to her family. She was a rare shining light in this world. Missed so deeply every minute of every day...*

JM

“ *Kym was always friendly and lively at Hunter's hockey practices. We had a genuine connection with her as she welcomed us as new members to the Eugene Junior Generals pee-wee team. Kym is and will continue to be sorely missed, none of us that knew her had nearly enough time with her. She sincerely made hockey practice much, much more than merely sitting and waiting for it to end. We miss her.*

“ I worked with Kim for many years before she moved to Oregon. She would come to my desk and chat with me when work was slow. We laughed about our talks being counseling sessions because we would talk about life in so many ways and every conversation we had included Drew and her boys. They were her world. She is no longer in this physical world with us but will always be there spiritually. Find some peace in knowing that our souls never truly pass they just move to a spiritual place.

“ Kim was the daughter of my cousin Earle and his wife, Marilyn. While it has been many years since I've seen her, in reading the many sentiments I can see how loved she was and I wanted to extend our heartfelt condolences to Drew, her sons and parents, and all of her family, extended family, and friends. May memories of happier times bring a smile and the love of family and friends keep you strong in the coming days. God Bless you all.

“ Kim is definitely one of the best friends I have ever had, and the closest thing to a sister I will ever have. She was always there for everyone except maybe herself. I will miss all the days together at work when we would talk about everything and nothing. All the nights at ATA we would crack up together and have a great time. She was always there for me, relationships issues, kid issues, my mom's passing.....Kim was a rock for me and just an incredible person, I miss her so much already. Her love for her husband and her children was pure and beautiful. I looked up to her as a wife, a mother, a trainer, a person and most of all a friend. I love you Kim, you are missed dearly and until we meet again know that I will think of you and miss you always.

“ On behalf on my family and I, we extend our heartfelt sorrow to the Barclay and Brown family. Kim was one of my oldest and dearest friends. She was the embodiment of true friend. From fishing on the lake, to hiking Mt Chocurua to playing manhunt...From the square dancing with Happy Harry to bike chases...and from being a support for my darkest times to going camping with the kids...those are the memories I shall hold dear and will keep her spirit alive. Riposare in Pace mi amica.

*Chris Carcieri and family*
