“ *Mark McClees cared deeply about his children, family, and others. He valued education and graduated with a bachelors degree from the University of Evansville and a Master degree from the University of Illinois. Mark worked at the University of Illinois, the Mayo Clinic, collaborated on medical research, was a successful grant writer. He worked to leave a positive impact on the world and for the future of his children. Mark worked for Doctors without Borders during the late 90's to help provide medical aid and assistance to the people of Kosovo who were victims of ethnic cleansing. In his most recent years, he worked to help vulnerable residents of Corvallis seeking to restore balance and physical health. While Mark spent many hours of his life working to improve the lives of others, he did find time to be an accomplished marathon runner - completing the New York and Boston Marathons, to name a few. Mark also had a life long passion for the cinema. This love of cinema inspired him to help develop programs that made movies finically accessible at local theaters. Mark McClees was a champion of Human Rights and Social Justice. He will be dearly missed by those who had the honor to know him.*
