“ *Michael was a good man, he was a good friend. I miss you Mike. I'm sorry the last few years were so hard for you, I wish I could have helped you as much as you helped me. Rest in peace my friend, may God bless you forever more.*

“ *Mike was my boss at the OSU Computer Center in the early 1980's. He was a really nice guy and a good boss, but you always felt like his job there in the basement office wasn't really his cup of tea. His big move to Alaska was viewed by all of us as the start of his real adventure.*

*Nancy Hyde
Corvallis*

“ Mike was a great friend I've had the pleasure of knowing for over 30 years. He was a proud Navy Veteran who served his country in Alaska, California and Okinawa, we traded many stories of our military experiences over numerous Cribbage games and other card games that he loved to play. He was an avid fisherman who loved getting out on the water and would stay up all night if the fish were running. He fished western Alaska and love the Quinahgak and Goodnews Bay areas. He was a Logger who grew up in Sweet Home, Oregon where he loved to hunt and fish. He was a fanatical Oregon State Beaver Fan who followed there every game no matter what sport. He graduated from State with a degree in Accounting and was employed in numerous accounting jobs on the West Coast and Alaska. When he moved to Bethel, Alaska in the early 1980's for an Accountant position with the school district, he really enjoyed the out-door life style. He lived in almost every area of Alaska from the Pan handle in the SE, The Aleutian Peninsula, Western Alaska, South Central, Fairbanks and on the Yukon River village of Tanana with his second wife Dorthy. He fished and hunted most of Alaska's major river systems, like the Kuskokwim, Yukon and Kenai as well as fished the Salt waters of Bristol Bay and Cook Inlet. He was a good friend and will be missed.

Jim Kass
Kenai, Alaska
