JT

“ I remember growing up with Michael as our familys were friends and then his mom and my dad dated so we became step siblings. He was like a big brother. Walked me to the store so I could use the pay phone (yes that was in our time) to call my boyfriend. Always looking out for me. Then time passed and until recently maybe a year the family found me on Facebook. This saddens me because as much as I know he's in a better place he was far to young to leave so soon. We know he is in paradise and until we meet again Michael RIP. Love you brother !

“ My Uncle Mike was the best best there ever was. 18 years ago my mom traveled to Oregon with just the clothes on her back, and four girls. He welcomed us with open arms as he picked us up. He had a heart of gold. I made him an uncle 🤪 he never failed at helping anybody and everybody. The last memory I have with him is when I took some eggnog over to his house and he told me how disgusting it was and that he would not drink it. But instead I ate some pumpkin donut holes he had. We sat by his new fire place and talked about him fixing his hottub it needed a new pump . I'll forever remember him and hold him dearly to my heart. I love you Uncle Mike. May you RIP. LOVE ALWAYS Kayla Marie Rainwater
