“ Dear family of Richard,
I am sorry for your loss. Dick was a great teacher, mentor and manager and he will be sorely missed. I worked for him in the Geophysics Department for seven years in the late seventies as a student/research assistant and I have fond memories of my time in Corvallis. Dick always made the students feel part of the team and thanks to him there was no student-faculty barriers and the working/studying environment was excellent during his tenure. He would invite all the students to his house for dinner several times during the year as he knew that most of us were missing our home and we looked forward to a home-cooked meal.
God Bless His Soul,
Michel Bee.

“ Dear family of Richard, I am sorry for your loss

I would like to share that Dick Couch was a great boss as well as a friend. I worked for him in Geophysical Oceanography for about seven years as a Research Assistant. He was the kindest person I had ever worked for and he was responsible for making our group fun and respectful as well as professional. When I look back, more than 40 years ago I can easily say it was by far the best working situation I ever experienced because of Dick's easy-going way with his students and staff, although when it came to getting funding for our programs he could be fierce.
May he rest in peace.
