Tribute Wall

“ I see that tomorrow would have been Tom's birthday. We were not in touch for years, but recently I found a note from him penned from his parent's address in Arlington (1975), so I made a search based on the family name and that address. And so -sadly, learned this news. Tom was one of the merry music makers on a farm in Junction City, Oregon where some of us lived and had fun in the early 70's. He was dashing in a Robin Hood kind of way. He had a great zeal for life, a wry sense of humor, and continued commitment to the songs of life. I am sorry that he has gone ahead of us, and send my condolences to all who loved him.

“ I am so sad to hear of Tom's passing, and my condolences go out to Tina and all of his children. I was a friend of Melody's when we were in middle school in Corvallis and I just loved hanging out at her house because of how charismatic her Dad was and the things we learned from him. I know he will be missed by many. Kristin
