VC

“ Bill always look out after me as a child. I was a neighbor of his iwhen I was a young boy. My parents were a little odd outside, and Bill always made sure that I was taken care of. He took me up on his plane a couple of times. And I remember riding in the backseat of his Volkswagen bug. I always think about him often. He was one of my protectors. His step sons Jay and Jon were my pals. Von
