“ Yesterday I learned of Dr. Yu's death from Dr. Richard Coddington. Dr Yu was my faculty advisor for my PhD which I received from the University of Kansas in 1966. The education which I received has been very meaningful to my professional life (retired 2003) and beyond, right up to the present time. That education gave me a foundation for studies which I wanted to do since I was a teenager but which I didn't have time for until after retirement. He had a significant influence on my life and I was saddened to learn of his passing.

Sincerely,
Dan B. McVickar, PhD.
